

HB 367 -- ON-SITE SEWAGE DISPOSAL SYSTEMS

SPONSOR: Black

This bill exempts any on-site sewage disposal system of any building or facility owned by a religious organization and used for a religious purpose from all rules relating to on-site sewage disposal unless the system is determined to present a threat to groundwater or public health. To be exempt, the system cannot serve a school or day-care facility.

A religious organization cannot be required to replace, change, upgrade, or otherwise alter an existing on-site sewage disposal system installed before August 28, 2015, unless the system is determined to present a threat to groundwater or public health.
